loan approval, the area to be served is an urbanized area (notwithstanding that the area must be deemed a rural area to qualify for a loan under this part (See the definition of “rural area” in 7 CFR 1710.2)), then the borrower must satisfy the provisions of paragraphs (a) and (d) of this section to qualify to the 5 percent hardship interest rate. If at the time of loan approval, such area is outside an urbanized area, the loan shall not be subject to the conditions and limitations set forth in paragraphs (a) and (d) of this section.

(c) *Administrator’s discretion.* The Administrator may make a hardship rate loan if, in the sole discretion of the Administrator, the borrower has experienced a severe hardship. The Administrator shall consider, among other matters, whether factors beyond the control or substantial influence of the borrower have had severe adverse effect on the borrower’s ability to provide service consistent with the purposes of the RE Act, and which prudent management could not reasonably anticipate and either prevent or insure against. Among the factors that may be considered are system damage due to unusual weather or other natural disasters or Acts of God, loss of substantial loads, extreme rate disparity compared to a contiguous utility, and other factors that cause severe financial hardship. The Administrator will also consider whether a hardship rate loan will provide significant relief to the borrower in dealing with the severe hardship.

(d) *High density test.* Except as provided in paragraph (b) of this section, if the average number of consumers per mile of the borrower’s total electric system exceeds 17, the 5 percent hardship rate will not apply to funds used for the purpose of furnishing or improving electric service to consumers located in an area that is an urban area at the time of loan approval, notwithstanding that the area must have been deemed a rural area for the purpose of qualifying for a loan under this part. (See the definition of “rural area” in 7 CFR 1710.2.) If the average number of consumers per mile of line of the borrower’s total electric system exceeds 17, the borrower must include, as a

note on RUS Form 740c, Cost Estimates and Loan Budget for Electric Borrowers, submitted as part of the loan application for a loan at the 5 percent hardship rate, a breakdown of funds included in the proposed loan to furnish or improve service to consumers located in urban areas. For such borrowers only funds for those facilities serving consumers located outside an urban area are eligible for the 5 percent hardship rate.
